EDUCATION

University of Central Florida

- Master of Science - Cybersecurity and Privacy (Online)
- Bachelor of Science - Information Technology
- Awards - President's List (Fall 2023, Spring 2023) / National Scholars Award / Dean's List (Fall 2024, Spring 2022)

Expected Graduation: August 2026

Graduated May 2025

SKILLS & CERTIFICATIONS

- **Security & Diagnostic Tools:** (Nmap, Wireshark, Burp Suite, Kali Linux, Nessus, Metasploit, OpenVAS, Trivy)
- **Certifications:** (CompTIA Security+, CompTIA Network+ (In Progress), AWS Academy Cloud Security Foundations, AWS Academy Cloud Foundations, TestOut IT Fundamentals Pro)
- **Ticketing & Support Systems:** (Active Directory / ADUC, Zendesk, ConnectWise, Remote Desktop Protocol (RDP), ServiceNow)
- **Networking & Protocols:** (TCP/IP, DNS, DHCP, VPN, Cisco Packet Tracer, AWS, Azure)
- **Programming & Scripting:** (Python, PowerShell, Bash, Java, C++, C#, SQL, JavaScript)
- **Virtualization & Monitoring Tools:** (VMware, VirtualBox, Hyper-V, Splunk, SolarWinds)
- **Cloud & Infrastructure Security:** (Virtual Machines, Cloud Security Principles, Information Security, Risk Management)
- **System Administration:** (Windows Server, Linux (Ubuntu, Unix), macOS, iOS, Windows 10/11 Troubleshooting)
- **Security & Compliance Frameworks:** (ISO/IEC 27001, NIST, SOC 2, HIPAA, GDPR, CIS Controls)

PROFESSIONAL EXPERIENCE

Tier 3 Technical Support Engineer

Hybrid Enterprises | Full - Time Role

July 2025 - Present

St. Cloud, FL

- Continuous Monitoring: Monitor Windows and Linux servers, network devices, and applications using advanced monitoring tools to ensure system stability and performance.
- Incident Management: Detect, diagnose, and escalate system anomalies, performance issues, and outages to the appropriate support teams. Follow up to ensure timely resolution.
- Reporting: Document incidents, outages, and resolutions in detail. Generate regular reports on system performance and incident trends.

Technical Support Specialist / IT Quality Repair Technician

United Data Technologies (UDT) | Contract Role

May 2025 - June 2025

Orlando, FL

- Completed a short-term contract supporting end users via ConnectWise with hardware/software troubleshooting, password resets, and account lockouts via Active Directory.
- Assisted in implementing security protocols and best practices during repair processes while also conducting vulnerability assessments to identify and mitigate potential security risks in IT equipment before deployment.
- Created and documented detailed support tickets while escalating complex technical issues to senior technicians as needed.

Freelance IT Support & Cybersecurity Specialist

Self - Employed | Freelance Role

Jan 2025 - May 2025

Orlando, FL

- Building and securing virtual lab environments to simulate real-world security incidents. Setting up and managing SIEM systems to monitor logs and detect potential threats.
- Providing IT support and security hardening for small clients and personal networks while detecting simulated brute-force login attempts and suspicious activity. Conducting log analysis on simulated attack data to improve incident response skills.

PROJECTS

- **SecurePOS Application - (Python)**
 - A Python-based Self-Checkout Assistant program that allows users to add products, calculate totals, apply discounts, and generate receipts while also including features such as data persistence, and securely saving transaction history.
- **GuardianTask Application - (Java / GUI)**
 - Developed an app that assigns and secures notes for users' written in Java using GUI. The app provides a level of protection using multi-factor authentication, strong passwords, and backups.
- **CipherCart Application - (Java / GUI)**
 - Engineered and developed an app from scratch with 5 of my IT colleagues using Java to create a GUI platform that selects, stores, and manages items. The app lets you buy, change quantities, and get the overall total cost securely.

ACADEMIC INVOLVEMENT

- **Hack @ UCF**
 - Joined UCF's #1 Cybersecurity Club to learn more about network security fundamentals and concepts as well as familiarize myself with topics relating to information security and cloud computing.

May 2024
- **Capture the Flag Cyber Competition**
 - Participated in cybersecurity CTFs involving reverse engineering, OSINT, and exploitation challenges in capturing flags in a specified amount of time.

Jan 2023
- **National Society Of Leadership & Success (NSLS)**
 - Involved in numerous leadership and success-related projects and meetings to create better connections and improve my networking skills among students/colleagues all around UCF.

Nov 2022
